LOCAL AND GENERAL NEWS.

Death of Morris Wilson.

Morris Wilson, aged 37 years, died at Monticello Saturday evening, after an illness of two weeks. Mr. Wilson died from injuries received while in Decatur. He had a horse at W. T. Downing's stables, and while there the horse kicked him in the breast, which caused one of his lungs to be seriously affected, resulting in death. The deceased lived in Decatur 12 or 14 years ago, when he was in the grocery business with Samuel Shupp. He also kept the boarding house at the corner of West William and Church streets. He leaves a wife and daughter in good circumstances.

WANT THEIR RIGHTS.

Enthusiasm at the Galesburg Conference of Colored Ministers.

GALESBURG, ILL., August 23.—A scene of wild enthusiasm prevailed in the A. M. E. Conference to-day when the Committee on the State of the Country made this declaration in its report: "We are of the Republican party and within that party constitute a compact and well-defined class."

A moment later Dr. Herrick presented these resolutions, which served to increase the enthusiasm:

Whereas, The object of the national election bill is to redress the wrong, the toleration of which for so many years has dishonored the nation, and

Whereas, It is designed by its means to restore to hundreds of thousands of citizens of the United States the right of voting guaranteed by the Constitution, but which they have been deprived of for many years,

Resolved, That we deem the national election bill a wise and timely measure and as such urge its passage by the United States Senate as a fulfillment of the solemn pledge made by the party of equal rights that the civil and political equality of all citizens shall be protected

Resolved, That we heartily commend his Excellency the President, Hon. Benjamin Harrison, for the bold and fearless stand he has taken in recommending the passage of such a measure as will put an end to all unlawful proceedings which are continually disturbing the peace and quietness of the Government.

Resolved, That we would say to our brethren throughout this broad land that we counsel patience and kindly feelings toward those with whom we are called to live and labor, yet at the same time would urge upon them to bravely and intelligently demand their lawful rights as American citizens.

Amens came from every part of the church. Fervent speeches were made by Dr. Herrick, Dr. J. M. Henderson and Dr. J. T. Jenifer, supporting the resolutions. Dr. J. E. Embry was opposed to the conference pledging itself to the Republican or any other party. The report and resolutions were adopted by a nearly unanimous vote amid the shouts of the conference.

Thinks He is Gen. Grant.

Mr. Mike O'Keefe, an aged fenian, is endeavoring to make the people of Decatur believe he is Gen. Grant. This he does by constantly repeating over and over: "I am General Grant." The same gentleman was in hock in this city a few days ago and is well known to the police. He is about 60 years of age, without money or friends.—*Bloomington Leader.*

Value of Oysters for Food.

Speaking roughly a quart of oysters contains on the average about the same quantity of active nutritive substance as a quart of milk, or a pound of very lean beef, or a pound and a half of fresh codfish, or two-thirds of a pound of bread. But while the weight of actual nutriment in the different qualities of food named is very nearly the same the quality is widely different. That of the very lean meat or codfish consists mostly of what are called in chemical language protein compounds or "flesh formers"—the substance which makes blood, muscle, tendon, bone, brain and other nitrogenous tissues. That of the bread contains but little of these, and consists chiefly of starch, with a little fat and other compounds which serve the body as fuel, and supply it with heat and muscular power. The nutritive substance of oysters contains considerable of both the flesh forming and the more especially heat and force giving ingredients. Oysters come nearer to milk than almost any other common food; their values for supplying the body with material to build up its parts, repair its wastes and furnish it with heat and energy would be pretty nearly the same.—Century Magazine.

A Little Girl's Grit.

W. S. Little, who lives out on the adobe land, tells the following story of what a brave little girl can do. While Miller was in town Mrs. Miller was taken suddenly sick, and there was no person about the house or ranch besides the mother and her children, the eldest a girl about five years old. The little girl, seeing the situation, started for Mr. Little's place, about a mile distant On the route she had to wade a slough of water which reached above her waist She waded the stream, and crossing the fields she reached Mr. Little's house, and telling them of her mother's sickness urged them to go to her home immediately, which they did, taking the brave little girl back with them. Mrs. Little remained with Mrs Miller, while Mr. Little came to town for the husband and a doctor.—Biggs Argus.

Ward McAllister tells the fashionable young men firmly, but kindly, that they must not have valets. "No gentleman should permit himself this sort of association," he says, and there are those who dare suggest in this connection the principle of self preservation, and the old saying that no man is a hero to his valet.

Owing to the influx of capital from the north there has set in an era of house restoration in Virginia. Old southern mansions reduced to a mass of ruins are propped up, repainted and thoroughly restored and surrounded by elaborate pleasure grounds

The Pulpit and the Stage.

Rev. F. M. Shrout, Pastor United Brethren Church, Blue Mound, Kan., says: "I feel it my duty to tell what wonders Dr. King's New Discovery has done for me. My Lungs were badly diseased, and my parishioners thought I could live only a few weeks. I took five bottles of Dr. King's New Discovery and am sound and well, gaining 26 lbs. in weight."

Arthur Love, Manager Love's Funny Folks Combination, writes: "After a thorough trial and convincing evidence, I am confident Dr. King's New Discovery for Consumption, beats 'em all, and cures when everything else fails. The greatest kindness I can do my many thousand friends is to urge them to try it." Free trial bottles at King & Wood's drug store. Regular sizes 50c and $1.00. cm

SONG.

Though the golden bowl be broken
That held love's rosy wine,
Though the last fond word be spoken
That held thee once as mine,
Fond memory still will cherish
The dream so dear to me,
And all each pulse shall perish
My heart will cling to thee
Though the golden bowl be broken
My heart will cling to thee

Though the silver chord be silent
That thrilled beneath thy hand,
As in some desert island
'Neath fallen hopes I stand
But yet, where'er I wander,
Thy beauty I shall see,
And as the past I ponder
My heart will cling to thee
Though the silver chord be silent
My heart will cling to thee

Oh, each imperfect token,
'Twere vain my love to tell,
Though the golden bowl be broken
And the silver chord as well,
Fond memory still will cherish
The dream so dear to me,
And all each pulse shall perish
My heart will cling to thee
Though the golden bowl be broken
My heart will cling to thee

SOME years ago we were very much subject to severe spells of cholera morbus; and now when we feel any of the symptoms that usually precede that ailment, such as sickness at the stomach, diarrhoea, etc., we become scary. We have found Chamberlain's Remedy the very thing to straighten one out in such cases, and always keep it about. It is somewhat similar to the usual cholera cures, but seems to contain ingredients that render it more pleasant to take, and that do their work more quickly. Sheriff Devereux tells us that he is subject to cholera morbus, and recently felt a spell coming on, when he obtained a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and two doses made him all right. We are not writing this for a pay testimonial, but to let our readers know what is a good thing to keep handy in the house.—*Troy (Kan.) Chief.*

Instant Relief.

The great merit of Reid's German Cough and Kidney Cure is its instantaneous action. One does not have to take it a month before one perceives its good effects. A single dose often produces beneficial results, while a bottle will cure the worst cold. When there is chronic difficulty it is best to persevere in taking it until a cure is effected; but it is certain to help the very worst cases if persisted in. It is unrivalled in this particular. Every one who has once taken it is satisfied with it, and this is one of its strongest recommendations. In lumbago, a pain in the back, it acts at once, and relieves the sufferer. The sudden changes in the summer, caused by the severe storms that set in from the northwest, are greatly provocative of colds that show themselves in colic, diarrahœa, bilious attacks, etc. Reid's German Cough and Kidney Cure at once relieves the patient and checks the malady. In all cases of this kind it is simply invaluable. No household should be without it, because a dose taken at the beginning of a difficulty will restore tone to the system and enable the stomach to throw off the morbid poison that is irritating it. There is neither morphine, opium, nor any other poison in it, so there are no after effects to overcome; on the contrary the whole digestive and circulatory system is in better shape to resist disease than it was before. A bottle of this great remedy should therefore be kept always at hand. It is invaluable for invalids. For sale by all druggists.

OUR Prairie street reformer objects to our calling every one who sets himself up as a tariff reformer a free trader. Of course he objects to the truth as long as he is engaged in the business of attempting to deceive the public. The tariff reformer is in favor of free wool and Ex-Senator Bayard said that free wool led to free trade as naturally as a tadpole led to a bullfrog. Scores of tariff reformers have said, when expressing their honest views, that the Morrison tariff bill and the Mills tariff bill were but the entering wedges to free trade. Tariff reform is the antipode of protection, and the only reason why free traders object to be known as such is that the truth would not succeed as a vote catcher.

A WASHINGTON special to the Chicago *Tribune* on Blaine as a possible presidential candidate says:

In this connection one of Mr. Blaine's closest allies in Congress said to-day in his opinion the recent attitude of the Republicans on the Tariff and Election bills had much to do with the Secretary's determination. "He is very strongly opposed to the Election bill," said this Congressman, "and is almost as hostile to the McKinley bill as it now stands. His efforts to bring his views to [illegible] have been so badly received by many of his [illegible] friends in Congress that he is disposed to await the outcome of events rather than to put himself at the head of the party in its present line of policy. His friends in the Senate are anxious to rush through a measure providing for some sort of reciprocity, but even that program has been changed so much from the one originally urged by the Secretary that it by no means meets his approval, even if it can pass the House, which contingency seems very doubtful. Altogether it is not to be doubted, in my opinion, that the Secretary does not care for the Republican nomination because he is not in sympathy with the policy and plans of the other Republican leaders."

Mr. Blaine is opposed to any Election bill and defeated the Election bill of 1875, recommended by President Grant. In this he has never been in harmony with his party and as regards the McKinley bill. Senator Frye, speaking for Blaine, said that the only objection Mr. Blaine had to the McKinley bill was the fact that the proposition to make sugar free carried with it no condition that sugar producers should reciprocate.

Bobbing for Votes.

That which should commend the Republican party more than any other one thing is the fact that the Democratic party has always been its spiteful foe. When the Republican party came into power in 1860, to defeat its administration, the South, where Democrats are born, seceded from the Union under promise of aid in support of secession from their northern allies. Every financial measure proposed by the Republican party has been opposed by the Democratic party. Its reconstruction policy and its resumption policy were alike opposed by that party. In their opposition to the Republican party the Democrats have always told the people that the Republicans were their enemies, and they are still doing business in the same way.

Having failed, in other things, to mislead the people, in 1884 the war against the Republican policy of protection was revived and has since been the chief point of attack. In these attacks the Democrats seek to array one section of our people against another, as well as one class against another. They tell the western people that New England is robbing them, while they whisper to New England that the West is unjust in not conceding them free raw material. The farmer is told that protection has reduced the price of the breadstuffs he raises, and the laborers of the cities are told that protection has increased the price of the breadstuffs they buy.

In 1884 some of the Democratic leaders told the farmer that he needed the market of England to make farming profitable and that protection barred him out of that market, while others with equal wisdom told him that that market was not fit for him and a home market was what he needed; that to make a home market it was necessary to increase our manufactories and that protection was a standing menace to that end.

To-day some Democrats are reckless enough to say that free trade made Liverpool the best market in the world for farmers, while others claim that American protection has forced down the Liverpool grain market, and that the American farmer gets for his breadstuffs, in Liverpool, only as much more as the cost of carrying it to that market amounts to.

President Cleveland told the people that the Republicans by protection increased the price of everything they buy by the amount of the duty. Democratic leaders tell the people the same story, but in congress, when met with incontrovertible facts, the same leaders admit that the tendency of protection has been to reduce prices of manufactures. These are but a few of the many inconsistencies resulting from the supreme efforts of the Democratic party to prejudice the people against protection, for no other purpose than to defeat the Republican party, which they have despised ever since Mr. Lincoln was forced to steal his way from Springfield to Washington, to avoid assassination, that he might be inaugurated President.

OFF FOR ST. JOE.

Departure of Camp 14 to Capture the $450 Prize.

This afternoon Col. I. C. Pugh Camp No. 14, 23 men, left for St. Joseph, Mo., to attend the annual meeting of the Commandery-in Chief, a national gathering of the order. The Camp took the Wabash and will arrive in St. Louis this evening, leaving for St. Joe, arriving there at 8 o'clock to-morrow morning. The chief purpose of the trip is to compete with the Springfield, St. Paul and Indianapolis camps for the three splendid prizes. The first prize is $450 cash; second $200 cash; third $75 cash and a $75 silk banner. Either prize is well worth going after, but Camp 14 is after the $450 and will get it if they can. The competitive drill will occur by electric light Wednesday night. Below are the members of the Camp 14 drill squad:

Capt. J. F. Cassell.
First Lieut. Arthur Gallagher.
Second Lieut. Byron Askins.
Sergeants Wm. McClelland and Delle Harris.
Corporals James Lindsay, Dan Moore, P. D. Roby, Harry Fletcher.
Privates Wm. Sherb, Harry Haines, Frank Meade, Stephen Dellinger, Wm. Walch, Geo. Peake, Wm. Downing, W. S. Schmunck, Oliver Baylor, Warren Seivers, Wm. Clark, Geo. Shank, Louis Chandler

It is expected that the report of the adjutant general, which will be made at St. Joe this week, will place Illinois at the head numerically—the membership of the state being 7,969. Ohio has long enjoyed the honor of being "on top" but the splendid work which has been and is being done by Col. Stadden is telling for the "hustler division," as the boys call Illinois.

At Lake Bluff.

The events of the week at Lake Bluff was the hop at Hotel Irving Saturday evening. The lawn was lighted with lanterns and turned into a promenade. The young "theologues" and the professors in the summer school enjoyed the festivities in old-fashioned style. Among those who attended the hop were: F. L. Morrell and lady, H. F. Holmes and lady, H. P. Gray and lady, of St. Louis; W. J. Hobson and wife, St. Joseph, Mo.; N. A. Vincent and wife, Springfield, Ill.; W. J. Quinlan and wife, Giles R. Warren and wife, Decatur, Ill.; Henry P. Ide and wife, Chicago.

CONGRESSMAN OATES, of Alabama, predicts that either the Republicans will control the next House or the Farmers' Alliance will hold the balance of power.

It seems that the amount of Northern capital invested in the South had a great deal to do with the shelving of the Force bill.—*Review.*

That is probably true, but instead of that being a matter to rejoice over, as the *Review* evidently thinks it is, past compromises with the South, influenced by capital, which led to the sacrifice of hundreds of thousands of the lives of common people, show that such compromises are a fraud and delusion.

Perhaps it is foolish to imagine that politics should have some of the manners of society.—*Review.*

This observation is intended as a rebuke to the REPUBLICAN and in reply we have only to say that if the *Review* will observe the above rule it will be entitled to more courtesy.

THE GREAT STRIKE.

Every Body Awaiting the Issue of the Terre Haute Conference.

SUPREME COUNCIL HARD AT WORK

With a Strong Leaning in Favor of the Striking Knights—A Big Strike on the Southern Pacific Railroad Imperding.

TERRE HAUTE, Aug. 24.—When the supreme council got together at ten o'clock yesterday morning the prospects for a strike were exceedingly dubious. It was known that the delegates from the Switchmen's Union were opposed to a declaration of hostilities at this time; that the representatives of the conductors were uncertain of their ground, and that at least one of the delegates from the Brotherhood of Trainmen had formed an opinion that would require facts and figures to remove. Just as soon, however, as the key had been turned in the lock, President and Grand Master Sargent proceeded to get to business in his characteristic sledge-hammer manner. Beginning with the inception of the trouble on the Central, he went through the story in detail, fortifying his memory with numerous documents and reports, the majority of which have never yet been in print. He rattled on this way for two solid hours, stopping now and then to reply to questions.

Sargent made no recommendation, preferring, as he said, to leave the council untrammeled until general debate was in order

When he had finished, Sweeney, of the Switchmen's Union, who had been on the ground in New York, came to the front with a report which in the main was a corroboration of the facts that had already been presented.

By this time it was half-past one o'clock, and as nearly all the delegates had breakfasted at a very early hour, it was considered advisable to pay some attention to the wants of the inner man.

The delegates must have been possessed of extraordinary appetites, for they tarried nearly two hours at the dinner table, and it was not until half-past three o'clock that they resumed their places around the table in the club-room. This time Delegate Morrissey, of the trainmen, who had also happened to be in New York at the inception of the trouble, set the ball rolling with a carefully prepared statement which was strongly favorable to the Knights.

After this a general discussion was initiated, Sweeney for the switchmen, Howard for the conductors, and Wilkinson for the trainmen being the principal participants. It was very quickly developed that a decided difference of opinion was entertained concerning the advisability of the Federation taking up the cause of the Knights. Every body agreed upon the main question, that the cause of the Knights was a just one; that Powderly had throughout pursued a careful and prudent course, and that Mr. Webb was wholly and solely to blame for the present situation by his persistent refusal to consent to an amicable adjustment of the difficulties. But whether, granting all these facts, the way was open for the Federation to take charge of the battle-flags, and whether, supposing it so ordered, the supreme council would be supported by the orders behind it, were questions upon which serious doubts were expressed by at least four of the dozen delegates.

As the discussion proceeded and the portions of the various documents already presented were read and reread, the debate assumed a complicated form. The knights, however, were not without champions, and several stirring speeches were made in which the council was urged to display its manhood by standing shoulder to shoulder with Powderly. It was contended with emphasis that even if it refrained from entering the ring at this time, it was evident, judging from Webb's attitude, that it would be compeled to do so in its own defense in the near future. After the debate had dragged along for four hours, and at least two of the waverers had been brought around to the side favoring decisive action, the committee already named as appointed to prepare certain "propositions" as one member of the council put it, or "ultimatum," to quote another, the council took an indefinite recess.

At 10:30 p. m. the supreme council adjourned until to-morrow (Monday) morning. The sub-committee will be in session throughout to-day. The advices referred to in Sargent's letter to Powderly are the bills of grievances upon which the council is required to act.

Adjourned to To-Day.

TERRE HAUTE, Ind., Aug. 24.—After a session of one hour the supreme council adjourned until 8:30 p. m. to-morrow. The report of the sub-committee has been completed, but the council decided not to enter upon its consideration to-night. It is semi-officially announced that the result of the meeting of the supreme council will be made public by noon to-morrow.

Powderly's Reply to Vice-President Webb.

NEW YORK, Aug. 24.—Mr. Powderly in his reply to Vice-President Webb's statement, in which he says that the causes which led to the discharge of the New York Central employes were drunkenness, incapacity, insubordination, etc., says: "I see that you have at last ventured to break the long silence that sealed your lips in relation to the causes which led to the discharge of the fifty or sixty employes of the New York Central road. Your alleged explanation is even less creditable to you than the silence it has broken, and does not in any way excuse the stand you have taken. Your statement is eminently worthy of a man who can see no cause for investigation in cases of drunkenness, incapacity for duty and insubordination."

Mr. Powderly goes on to point out that Mr. Webb avoids saying that the men discharged for the above causes were the fifty or sixty men whose discharge occasioned the strike. He also points out the injustice to a man discharged for lack of work, of bunching him with men discharged for the above named causes. Mr. Powderly then proceeds to say that Mr. Webb relies upon the statements of subordinates in regard to the men. One of the subordinates is Foreman Jno. Briggs. Mr. Powderly submits the affidavits of several men who allege that they were required to pay two dollars per month to their boss in order to keep their positions under Briggs, also that the use of liquor was condoned if the liquor was shared with the boss. Mr. Powderly says that by refusing an investigation, Mr. Webb has made it impossible to expose such abuses which are going on under his nose. Mr. Powderly then quotes some utterances of President Depew in favor or arbitration. He also asserts that reliable men have informed him that they were asked by their foreman if they were Knights of Labor, and on replying in the affirmative, were discharged, no other cause being assigned.

An investigation would have shown whether Mr. Webb's informants or Mr. Powderly's informants told the truth.

Strike Threatened on the Southern Pacific.

HOUSTON, Tex., Aug. 25.—There is every reason to believe that a strike will be inaugurated on the Southern Pacific by the Brotherhood of Locomotive Engineers. Four engineers were recently discharged for what the company considered good cause and some of them were re-instated. The engineers then demanded pay for the time they were laid off, which was refused. After full discussion of the matter between General Manager Kruttschmitt and the grievance committe the company offered to arbitrate the question, but the engineers would not agree this, and the affair looks squally. The whole matter has been referred to President Huntington for his decision. Should he sustain the position of the general manager the men will go out.

The Switchmen's Strike at Green Island

ALBANY, N. Y., Aug. 24.—Superintendent Hammond of the Delaware & Hudson, says that the places of the train hands and switchmen at Green Island, who struck because the Delaware & Hudson were handling New York Central freight, will be filled at once. He says the strike is of no importance. It is stated that 150 hands between here and Green Island are out. Passenger trains are delayed and freight nearly suspended. Mr. Hammond says he is firm in the determination to handle Central freight. It is said that the Boston & Albany road is accused by the Knights of Labor of taking Central freight over its road from here to Chatham, whence it is sent over the Harlem road to New York. If this is so, a strike is probable on that road. The Fitchburg road is also accused of handling Central freight.

Freight Trains Moving.

BUFFALO, N. Y., Aug. 24.—Seven freight trains went out from the Central yards yesterday, but this hardly made any impression on the blockade, and the situation is practically unchanged.

News from Terre Haute is eagerly looked for. There are about one hundred non-union men here who were brought by the Central but who refused to work, claiming that they were hired under a misrepresentation. They are a hard set, and trouble is feared from them. They are closely watched by the police.

Discharged Without Assignment of Cause.

BUFFALO, N. Y., Aug. 24.—Byron S. Kring, depot master at the Central depot, was discharged by Superintendent Burrows yesterday morning. No cause was assigned for the summary dismissal. Mr. Kring worked so hard during the first few days of the strike that he fell sick, and it is said that Mr. Burrows accused him of being in sympathy with the men and shamming sickness in order to help them.

Will Not be Able to "Run Things" on the Other Side.

NEW YORK, Aug. 25.—Henry Allison and John McNamara, the cattlemen who attempted to "run things" on the British steamer Chicago on her passage hither and broke open the cargo and stole several dozen bottles of Dublin porter, upon which they got drunk, were Saturday returned to England for trial under the new extradition treaty between the United States and Great Britain. This is the first case in which "larceny" on a British vessel was made extraditable.

Broke the Record.

CHICAGO, Aug. 24.—Edward Cheekley, of Brooklyn, rode into Chicago last night on a "safety wheel," having broken the bicycle record from New York to this city by sixteen hours. The previous record for the distance, which was established some years ago by Nelson, was fourteen days, twenty-three hours and thirty minutes. Mr. Cheekley rolled his machine over the road in fourteen days six hours and twenty-five minutes.

The Death Roll Increasing.

PHILADELPHIA, Aug. 25.—The body of Wm. H. Lee, who had been missing from his home, No. 2152 Orianna street, since Thursday evening last, was late Saturday afternoon found buried under the debris of the ruined car depot at Twelfth street and Susquehanna avenue. This makes the sixth victim, and grave fears are entertained that the body of William Cathcart, a salesman residing near by, will also be found in the debris.

A Snow Storm.

EASTON, Pa., Aug. 24.—Carrier Buss, who drives the mail between Easton and Saucon, says that on Saturday morning, while passing through Lower Saucon on his way to Easton, a snow squall prevailed for five to ten minutes, the flakes falling thick and fast.

Minister Lincoln to Resign and Return to Chicago.

CHICAGO, Aug. 25.—Edward S. Isham, one of Minister Lincoln's law partners, was seen yesterday in reference to the report that upon Secretary of Legation White's return to England, six or eight weeks hence, Robert T. Lincoln, United States Minister to the Court of St. James, would resign his position. Mr. Isham declined to either confirm or deny the report. It is the general opinion of a number of Mr. Lincoln's friends, however, that he will resign his exalted position before the new year and return to the practice of his profession in Chicago. This is strengthened by the report that when Mrs. Lincoln and her two daughters return from Iowa they will take up their residence in their beautiful home on Lake Shore drive.

Horrible Deed of a Crazy Man.

MINNEAPOLIS, Minn., Aug. 25.—A Livingston (Mont.) special to the Tribune says a man who gave his name as Arlington reported to Sheriff Templeton about five o'clock that a rancher named Quinn, living twelve miles west of Livingston, had killed his wife and five children with a broad-axe. The man was crazy, and when discovered was sitting in a corner of the room eating from the arm of one of the children. The bodies of all were horribly mutilated, the arms and legs being severed from their bodies. The eldest, a girl of about fifteen, was cut almost in two. Several men went to the house and tried to capture him, but he would allow no one to approach him, and was killed by one of the men in self-defense.

The Sawtelle Case.

DOVER, N. H. Aug. 25.—On Wednesday, September 3, the famous Sawtelle case will come up again, when the grand jury of Stratford County will be asked to find indictments against Saxe B. Sawtelle for the murder of his brother Hiram. It is said that strong evidence has been secured to prove that the crime was committed in New Hampshire, and not in Maine. This question of jurisdiction is conceded to be the most important to be considered by the grand jury, and its decision will be of vital importance to Sawtelle, since conviction in New Hampshire means death, while in Maine the extreme punishment for murder is life imprisonment.

A Horrible Murder.

NEOSHO, Mo., Aug. 24.—The head of Charles Thomas, colored, who has been missing since Monday, was found yesterday buried in a field. His arms and legs were found in a thick brush patch near his house and the body in a field, where a fire had been built. The murderer or murderers had tried to burn the corpse, as all the parts were literally roasted. In the ashes were found two nickels and Thomas' knife. Thomas had two sons and two daughters nearly grown, and these and his wife are suspected and have been arrested. He was well-to-do.

A Horrible Story.

OTTAWA, Ont., Aug. 24.—A horrible story comes from a small settlement on the Du Lievre river. Friday Mrs. Cote went berry picking, leaving her one-year-old babe in charge of two deaf mutes, her sons. The boys are half-witted, but were regarded as harmless. On returning home in the evening Mrs. Cote found the baby dead and the flesh eaten to the bone from its cheeks and one side of its neck. The gory faces of the idiots, who were still gloating over their prey, showed all too plainly that they had literally eaten the child alive.

A Confession Made and Withdrawn.

SALT LAKE CITY, Utah, Aug. 25.—The early part of last week a man giving the name of Jacob Stumpf called upon Marshal Young of this city and confessed that on January 4, 1890, he had murdered and robbed a man of twenty dollars in Nashville, Tenn. Mr. Young communicated with the Nashville authorities, and an officer is on his way here to investigate. Stumpf afterwards withdrew his confession and said he only made it to obtain food. He is still held, however.

A Dangerous $10 Counterfeit.

Between 12 and 1 o'clock to-day W. C. Ellsman, employed at the Loeb foundry, called at the Decatur National Bank to deposit about $71. He puts all his spare money there and carries a book. In the lot was a $10 bill that he had kept at his home since July, $61 of the sum having been drawn from Millikin & Co.'s bank on a check. J. A. Meriweather, the National Bank paying teller, ran through the bills and threw out one $10 bill as a rank counterfeit; it was the one Ellsman had brought from his home. It was all news to Mr. Ellsman, and knowing that he came by it honestly told all he knew about it. He had received it at the foundry in July as part payment for wages, and had kept it with other money at home for use, but it had not been needed, as there was smaller change all the time. Mr. Ellsman will report the bill to the foundry office, and if it is not accepted he will tear it up. The REPUBLICAN reporter had a look at the bill at Mr. Ellsman's bench at the foundry this afternoon. It is a bad bill, smaller each way than the genuine, with no silk in the paper; the face looks genuine, but the back is brown. It is a counterfeit on the Germania National Bank, of New Orleans, Louisiana, number 1591 back and front, series of 1882, and B361573. These counterfeits on the Germania bank have been heard of in different parts of the country, but this is the first one that has appeared in Decatur. Mr. Meriweather at once discovered the spurious character of the bill when he looked at it. Mr. Ellsman says he gets money only from the foundry office, and is positive that he could not have come in possession of the bill in any other way.

Charles H. Johns on Trial.

This afternoon the case of The People vs. Charles H. Johns was taken to 'Squire Foster's court on a change of venue by the defense from 'Squire Hammer's court. The defendant is charged with having criminally assaulted Mrs. Julia Foster, west of Decatur, on the afternoon of July 17th. To accommodate the large number of witnesses and spectators, 'Squire Foster concluded to hear the testimony in the circuit court room, and soon nearly 300 people gathered there. There are 12 women among the witnesses. Lee & Gray appear for the defendant and State's Attorney Mills for the People. The defense are confident of establishing an alibi.

Gambling House Pulled.

At 11 o'clock Sunday night Officers Williamson, Barrett and Bailey made a raid on the George Warren gambling house, over John Dipper's saloon, and captured Warren, George Holmes, Mr. McIntyre and three other men, besides the gambling outfit. Four gave bond and two went to jail. This morning a Webster street woman visited Marshal Mason who reported that her "man" was mysteriously missing. He had been gone since Sunday morning, and she could not find him. Her anxiety was removed when she discovered her man in the calaboose. He was one of the party arrested for gaming.

Clever Detective Work.

Since the Alsop & Co. store was robbed Marshal Mason has been busily engaged in sifting the thievery to the bottom. He accidentally discovered that there was a woman in the case, and he concluded that if he could find her there would be a revelation of interest. With the assistance of Alsop the woman was discovered at the Holiness camp meeting Sunday evening. Her name is Mrs. Jourdan, wife of the man who a few days ago went a-gunning for the party who had taken her from his home. She was arrested and after a time made a confession of importance to Mason. William Wright and James Smith are the names of the two parties in jail, arrested for the Alsop burglary. They were put in jail at the time. The Jourdan woman proves to have been implicated in the robbery. Wright is the man she was going with, and she was with him the day before and the day after the robbery. The two men had a valise. It contained valuable silverware which was not stolen from Alsop. Some of the silverware had disappeared. By clever management Marshal Mason put Mrs. Jourdan through the "sweating process" and got her tell what she knew. Then he went to Wright in jail and got him to tell what he had done with the silver ware. He confessed that he sold it at the Ballentine restaurant and there the Marshal found two sets of silver knives and forks, two sets of silver teaspoons, one set of tablespoons and a silver butter knife, all sold for one dollar. The Marshal took possession of the stolen goods and they are awaiting identification. Mrs. Jourdan is in jail and will be held as a party to the robbery. It was learned to-day that part of the goods in the valise were stolen from farm houses near Monticello. A cloak worth $35 is missing. It may be found.

Close of the National Holiness Meeting at Oakland Park.

Advice to Converts by President McDonald—False Stories.

The seventy-third annual camp-meeting of the Western National Holiness Association, which has been in progress at Oakland Park since August 15th, closed Sunday night at 10:30 o'clock, with shouts and hand-shakings, and today the campers are leaving for their homes on every outgoing train. The meeting is pronounced the most profitable spiritually and the largest ever held in the west. Secretary Welsh says the doctrine of Holiness has never been so well and fully presented. There were 102 tents at the camp and six to twelve persons were in them nearly every night of the meeting. The expense has been $1000, and that amount has been raised by free-will offerings. Sunday great crowds flocked to the camp, afternoon and night, and Holiness sermons were delivered by President McDonald and others. Before the afternoon sermon, many of those who had obtained the blessing gave their personal experience. At night the big tent was crowded with hundreds standing about. The altar service was of special interest.

PARTING WORDS BY M'DONALD.

Just before the meeting came to a close, President McDonald had everybody seated and then gave the converted fatherly advice. He said:

"Now, dear friends, as we separate, you go to a cold church and to a ministry not so spiritual as those you have met here. You will leave the influences of this great meeting, but wherever you are, be true to holiness. Keep up your profession, though the devil stands at the door to contend with you. Stand firm under all circumstances. The ministers will tell you that they don't believe in loud professions, but don't get offended or embittered; if you do, you'll lose your holiness; if they criticise you, answer as did Paul. Is it better to answer God's requirements or man's requirements? Speak in church with great simplicity, don't swing your arms and with loud voice proclaim your holiness. Do it in a gentle, humble manner; talk about what God has done for *you*, rather than what God has not done for other people. The best way is to tell of your personal testimony; then those who do not enjoy the blessing of holiness will not say you are flinging at them. Don't attempt to tell them how cold and back-slidden they are; speak only of what God and Salvation has done for you, then they will feel the force of holiness. * * In Illinois and Missouri there have been some terrible examples of holiness very damaging to the cause. Some have acted as if the Devil was in them. Avoid the "come-outism" spirit. The church is almost afraid of holiness. Keep from come-outism. Cling to the church of your choice; support it by your prayers and means; don't come out and form a circle or society—if you do, you won't be out six months; you will back-slide. * * Things are working. The church will come to this standard of holiness, and all or nearly all will swing into line. If they don't, it will be time enough for you and I and those who will follow us to determine what shall be done fifty or seventy-five years hence * * You will find opposition to holiness everywhere except in Heaven. Don't leave your church, but by the grace of God keep on talking. * * * Now listen to these recommendations When you go to your homes hold prayer meetings in cottages; if there are but two or three of you, get together and pray for the salvation of your church and friends. Be workers in the church, Sabbath school and class meeting. If your church goes in for fairs and festivals and such foolery don't go, stay away. A sociable where there's conversation and prayer is all right, but when the oyster is introduced don't go. Holiness can't stand that sort of thing. It's strong, but the spirit of God is tender. Attend to holiness—nothing else. Don't hitch on to it a variety of things but keep in the middle of the road all the time. * * * Just now there is great interest in faith healing. There is no objection to this. I believe persons may be healed by faith, but healing by faith is a small thing compared to holiness—people will flock for physical healing where you can't get one to seek soul-salvation. * * * President McDonald was interrupted at this point by Brother Haney, who wanted to know what the Holiness people in the churches would do in reference to church festivals arranged to raise money to pay part of the pastor's salary. "Don't have anything to do with them," was the reply, "but don't withdraw your support; pay your way. If they come to you and ask you to help, tell them no, no, no; but pay your proportion, give it in money and stay away from the festival, which is only gotten up for a good time, and is not in any sense spiritual, only injurious to the church. If the minister takes the money raised this way, it's all right if he can do it conscientiously. That is his affair. One minister that I know, when he heard that his church was going to give a festival to pay part of his salary asked the managers how much they expected to make and then told them to deduct the amount from his salary and give up the festival. But ministers should not refuse to take money made by festivals after they are held. If you object to the method, make your objections before the affair is started. Don't make trouble and cause ill feeling."

FALSE STORIES.

While at the camp Sunday the REPUBLICAN reporter was requested to state that the *Herald-Despatch* of Sunday morning in referring to the Fowler sermon had maliciously slandered that preacher to the great injury of the doctrine of Holiness. "Rev. Fowler did not say what the *H.-D.* prints," said the gentleman. "He did not send anybody to hell direct. He told about a reporter who had been asked to report a Sunday base ball game, but he was a christian and told his employer that he could not do the work, believing it was wicked. He did not say that all reporters would go to hell. The dressmaker story was a similar illustration. The lady, who was a christian, was asked to make a dress to be used at a ball. She refused to make it, telling the customer to take the dress elsewhere."

ON Sunday Officer Leech arrested Dick Shepherd and John Brown, who are wanted in Springfield. One is said to be charged with bigamy. The party were in a wagon and with them were two women and some children. An old man was in Decatur Saturday with a state warrant looking for the party, but he mysteriously disappeared before the arrest was effected. Springfield officers will be here to-night to give further particulars.

Union Picnic at Blue Mound.

Saturday was a great day for Blue Mound. It was the occasion of the Union picnic demonstration, given by the Grand Army Post, the Masons and the Odd Fellows, and a very large crowd was at the grove to enjoy the meeting. The orators were Gen. C. W. Pavey, Auditor of State, who delivered a patriotic address on "The Soldier"; Judge Nelson whose address was on "Masonry"; Elder Weedon who talked on "Odd Fellowship". Rev. Stevenson, of Blue Mound, also addressed the crowd. The Parish Military Band, of Taylorville, was awarded the prize for drilling. The attraction at night was the concert by the Jinglers. The ball was packed down the stairway to the walk.

Major Steele drove out to the meeting Saturday noon with Gen. Pavey.

Going East.

Miss Clara McCoy, who has charge of the trimming department at Mrs. K. Einstein's millinery store, will leave Wednesday for New York, where she will spend some time in the pattern department of one of the largest wholesale millinery houses, copying the imported designs, which will be displayed at their opening. These patterns will be sent on to Decatur thus enabling Mrs. Einstein to give her patrons the advantage of the latest styles at lower figures than can be duplicated at any other establishment in the city. 23-d1w

SUNDAY morning the chain of the brake of the Short Line electric car at the depot end broke as the car approached the sewer obstruction, and before the car could be stopped it ran against a plank which damaged the car to some extent. The gearing had to be repaired before the car could be started again.

THE National colors were adopted by Congress in 1777. The beautiful, rich, creamy color, so desirable for ladies' complexion, can be secured by using Cole's Carbolisoap. It cleans, invigorates and purifies the skin.

A CITY IN MINIATURE.

The Curious and Remarkably Perfect Manufacture of a Retired Merchant.

Alois Peteler, of New Dorp, S. I., a former resident of the city of Heidelberg, Germany, has built a perfect "pocket edition" of the old German berg, in which he was born and raised. With numerous photographs, drawings and plans of Heidelberg, aided by a thorough knowledge of his subject, Mr. Peteler began the foundation of his little city, and now, sitting on his front porch, he can overlook the roofs of this town of Lilliput, and into the courtyard of the great castle, so rich in romance, tradition and folklore. Every detail of the original city is reproduced with the fidelity of the photographer. From the balcony it is easy to imagine that it is the real city, only dwarfed by a distance of a few miles

Looking over the battlements of the miniature houses one can see the turbulent waters of the Neckar hurrying past to join the Rhine The little city is made to endure. There are no makeshifts, no glue, pasteboard or carpet tacks — everything is stone, cement, gravel, brass and iron The buildings are upon a plateau of stonework, elevated from the ground four or five feet The houses vary from one to five and a half feet in height, the tall towers running up from seven to ten feet Mr Peteler has reproduced with the greatest fidelity over 100 busts of the electoral governors, which are used in decorating the fronts of the palaces Even the coats-of-arms and quarterings over the entrances are plainly cut The old man takes pleasure in showing visitors a fac simile of the famous Heidelberg tun. It is really 86 feet long and 25 high The little model is 12 inches in length and about 8 inches high. In another part of the grounds the sea water is let in by pipes, and forms an artificial lake in which the tide rises and falls Upon a promontory which juts into the lake stands a model of the beautiful castle of Hohen-Schwangen Its towers are nearly 10 feet high, and with its cluster of buildings is picturesque and beautiful

Mr Peteler is a retired confectioner, with millions of dollars, thousands of which he has put into his miniature Heidelberg.—St Louis Republic

How Hair Cloth Is Made.

Many people understand, of course, how hair cloth is made, but for the edification of those who do not we will explain the process In the first place horsehair cannot be dyed It repels coloring matter, so to make black cloth it is necessary to secure natural black hair The horses, in many cases absolutely wild, running unrestrained, are regularly coraled and shorn Of course black hair is preferable, but sometimes gray stock is utilized. Not only the tails but also the manes are cut, the hair is bunched These bunches seldom contain hairs of less length than two feet, some are even three and three and a half feet, and the thickness of the bunches is usually two or three inches

The hair cloth looms are provided with what we may call a nipper, in place of shuttle, and the nipper is so finely actuated that it travels across the warp and seizes from the bunches one hair only—the jaws of the nipper being too fine to grasp more than one—and carries it across the weft threads, dropping it into the exact place. The action of the loom mechanically forces the hair next to its predecessor, the warp crosses upon it, snugly holds it in its place, the nipper travels back and seizes another, and so on and on The delicacy and almost human accuracy with which each separate hair is placed between the warp threads is really incredible.—New York Telegram.

The New Zealander's Heaven.

The New Zealanders imagine that the souls of the dead go to a place beneath the earth called Reinga. The path to this region of the soul is a precipice close to the seashore at the North Cape. It is said that the natives who live in the neighborhood can, at night, hear the sounds caused by the passing of spirits through the air It is a common superstition with them that the left eye of every chief becomes a star as soon as the chief dies. Shungie, a celebrated New Zealand king, once ate the eye of a valiant chief, thinking thereby to increase the brilliancy of his own "eye star."

Sometimes, apparently, it was thought that there was a separate immortality for each of the eyes of the dead, the left ascending to heaven as a star, the right, in the form of a spirit, descending to Reinga

It might be mentioned in this connection that the natives of the Sandwich Islands, at the time of their discovery, held a confused medley of notions concerning the future life. The current fancy was that the souls of their chiefs were led by a god, whose name denoted "eyeball of the sun," to a life in the heavens, while the souls of the common herd went down to Ekea, a place corresponding with the New Zealander's Reinga.—St. Louis Republic.

The Oldest Authoress.

Mrs Elizabeth Oakes Smith, now living in Holywood, N. C., is 84 years old and still vigorous in mind and body. Forty years ago she was a strong advocate of woman's rights She contributed articles to the magazines and delivered lectures in all the large cities. Her "Woman and Her Needs," published in 1850, was reprinted all over the world She was a Miss Prince, born in Maine, and married at the age of 16 Her husband died in 1870, and ever since she has lived in the south. She is probably the oldest living authoress in the United States Sketches and poems from her pen are often seen in New York weeklies, but she left the lecture field about the time Anna Dickinson entered it —Exchange

Dr Flint is quoted as saying: "I have never known a dyspeptic to recover vigorous health who undertook to live after a strictly regulated diet, and I have never known an instance of a healthy person living according to a strictly dietetic system who did not become a dyspeptic."

Specimen Cases.

S. H. Clifford, New Cassel, Wis., was troubled with Neuralgia and Rheumatism, his Stomach was disordered, his Liver was affected to an alarming degree, appetite fell away, and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him.

Edward Shepherd, Harrisburg, Ill., had a running sore on his leg of eight years' standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and his leg is sound and well. John Speaker, Catawba, O., had five large Fever sores on his leg, doctors said he was incurable. One bottle Electric Bitters and one box Bucklen's Arnica Salve cured him entirely. Sold at King & Wood's drug store. em

The MAN WITHOUT a STOMACH

May exist as a museum freak but most of us recognize the stomach as necessary to life and comfort. Most of us experience a little trouble from this source occasionally, viz., a loss of the stomach arising dyspepsia, etc., and often the trouble extends, involving the liver and bowels, whence we find biliousness and constipation. We find also that the kidneys and kidneys (nature's sewage system) become clogged with effete matter, from which come impure blood, boils, blotches, pimples, scrofulous eruptions, swellings and cancerous complaints. The Burdock Blood Bitters taken at the beginning, or at any later stage, arrests the trouble, restores the disordered organs to activity, thereby removing every vestige of disease. B. B. Excursions to the Republic of Honduras.

Farmers, Mechanics, Manufacturers, Sportsmen and Invalids are especially invited to investigate the advantages offered for settlement in the Republic of Honduras, in Central America.

Why not go where lands are cheap and terms are easy—where the climate is healthy and delightful, and all trades and industries will thrive and prosper—where a little money will secure a home and taxes and duties will not consume it? No droughts nor floods to injure crops, and cyclones and blizzards are unknown.

It is the best country on earth for a poor man or man of moderate means, to make a fortune. No extreme heat nor severe cold, and game and water in great abundance. For fishing and hunting it beats the world. All kinds of tropical fruits are easily grown, and sell for cash when ready for market

WHAT'S THE DIFFERENCE?

What is the difference to the buyer of Boots and Shoes whether we are selling now at less than cost of manufacture simply to unload, or because we want the cash or because we are unloading a wholesale stock or any other reason. The only question which a provident man can ask himself is, am I actually getting bargains such as will not be soon offered again? We assure you upon our word and by the goods and prices we offer that this is precisely the case.

IT IS A FACT that everything which goes into the make up of a shoe has been recently advanced so greatly that it will be utterly impossible for the manufacturers to make the next year's supply so cheap.

IT IS A FACT that higher cost of manufacture means greater cost to the jobber, greater cost to the retailer and greater cost to the consumer.

IT IS A FACT that notwithstanding these truths which no intelligent shoe dealer can deny, the Ferriss & Lapham Shoe Store has entered upon a big sacrifice sale.

IT IS A FACT that the prices made and the goods offered in this sale are such as will open the eyes of every shoe buyer who knows what he is doing.

It Is a Fact that the intelligent people of Decatur and the surrounding towns have learned that when we advertise bargains we have them, and they are coming by scores and hundreds every day to improve this last opportunity to get shoes at less than cost of manufacture.

It Is a Fact that we are not offering only a few baits, but are making the cut general all around the stock.

❈ SAMPLE OF CUT PRICES: ❈

Ladies Shoes at $1.00 which you will pay $1.75 for elsewhere Ladies' Shoes at $1 25 that cost $2.00 elsewhere.

Ladies' Dongolo Oxford, patent trim, wood heel, our former price was $2. We will sell it hereafter at $1.00, and it is the best bargain ever offered in this line in Decatur.

Ladies' Russet Oxfords for $1 00, our former price $1.75 and $2 25, and that was below what other dealers charged you for goods of like quality.

Men's $2 50 Russet Oxfords at $1 50. Here's a bargain and no mistake

Men's $3 Russet bals at $1.65—how's that for a cut?

Ladies' $3 hand-sewed shoes at $2 25, better buy them, they are dirt cheap

Men's Calf shoes, in Congress and Lace, were very cheap at $2 50 We will sell them now for $2. How does it strike you?

A better grade of Men's calf boots, we have sold them regularly at $3. You can buy them now at $2 25. Buy a pair and put them away for future use.

All our Men's calf shoes which have been sold at $2.50 and $3, and all finer grades will be offered at less money than they can be secured for at any place in this city or elsewhere.

Ladies' black Wigwam Slippers at 40 cents—have been selling regularly at $1.00. The present selling price is away below the wholsale cost figure.

Men's calf boots, all solid, we have sold them at $2 50, and they were a bargain at that figure. We will close them out now at $1 75 They can't be produced at the factory for the money.

COME NOW.

We are going to turn this stock into money, and we can't again quote these prices we offer now. If you neglect this opportunity you won't get shoes so cheap again, because we can't buy them so cheap again. Come this week and buy a supply of shoes for a year at the great
